There are larger catalogs
than ours,
but you understand
that “Radium” is worth more
than “Coal”.

What competitors say of us
matters little,
what we say and do
matters much.

Read Before Writing Your Order

HOW TO ORDER

Please order by number, stating trimming, tops, color of painting, and with pole or shafts. By following the above you will overcome misunderstanding and delays. Please state in your order how you wish your goods crated, under 30 or under 50 inches.

FREIGHT

The subject of freight is a very important one, and we endeavor to get the very best rates of freight at all times in making shipments, and also to crate our goods so that we will obtain the lowest rate possible. With two of the great trunk lines entering our city, we are so situated as to obtain the lowest possible rates, both east and west.

TOPS

A BUGGY TOP—Finest leather, with best rubber side curtains, lined throughout; leather covered bows; used on No. 26 and 27 buggies only.

B BUGGY TOP—Leather quarters, stays and back curtain, rubber roof, colored back side curtain; three or four bow steel sockets used on standard grade only.

C BUGGY TOP—Leather quarters and back stays, rubber roof and curtains, lined throughout (except side curtains). Side curtains colored back rubber; three or four bow steel sockets; used on Oakland grade only.

DUST HOODS—We will supply with any top, at an extra charge, In no case will **Hood be given Free**.

D BUGGY TOP—Made of rubber, lined throughout (except side curtains). Side curtains of colored back drill; three or four bow steel sockets; used on Oakland grade only.

E BUGGY TOP—24 oz. Fairfield rubber, lined throughout to correspond with seat trimmings. Side curtains colored back rubber; three or four bow steel sockets; used on standard grade only.

G BUGGY TOP—28 oz. rubber, lined throughout to correspond with seat trimmings; three or four bow steel sockets. Rubber, lined side curtains; used on No. 26 and 27 buggies only.

DONT'S Applying to WHEELS

Don't allow the rims of your wheels to be exposed. If the paint should become worn off by rough roads a little linseed oil rubbed on the rim after the vehicle has been washed will prevent moisture from penetrating the wood. Five cents expense in this way no doubt will save you dollars in the life of the vehicle.

DON'T LET YOUR TIRES GET LOOSE

We use the same care in setting tire as was used years ago. We put on all our tires hot by hand, not using the new style machines that ruin the life of the wheels. Tires must be kept tight to insure the life of the wheel. Continual usage over rough roads may stretch the tire. A slight expense in resetting tire will in all cases keep your vehicle in first-class shape, add years to its durability after warranty has expired.

SPECIAL MENTION

PROMPT SHIPMENT

We have a large building for the purpose of keeping a stock of carriages, complete and set up, and our endeavor is to please our customers with prompt shipments; but at times our immense capacity (three acres floor space) may not be entirely adequate to our wants, and shipments may get behind from this cause. If so, all orders will be considered to hold good until we accept countermand.

Note These Conditions:

Price and Terms... We quote a price on each vehicle by number as described in catalogue, stating terms and discounts named by us. F. O. B. cars, Pontiac, Mich.

Crating and Packing... We crate all our goods with great care and see that they are securely packed in cars at time of shipment, without extra charge.

References... When desiring to open an account with us or applying for an agency, give bank and trade references.

Responsibility... We cannot be responsible for the safe carriage or delivery of goods after they are received for "in good order" by the transportation company, but will always be glad to aid, as far as possible, in recovering for loss or damage in transportation.

Claims... Claims for damage or overcharge of freight, if any, must not be deducted from invoice, but if bill of lading and expense bill are sent to us, we will make claim against railroad company, and remit the amount to claimant as soon as collected. Any error or deficiency must be reported immediately upon receipt of goods.

Remittances... Please send New York draft or post office order payable to Pontiac Buggy Company, Pontiac, Mich. When money is sent by express, charges must be prepaid.

Settlements... *Must be made in accordance with terms of sale.* Customers, to avail themselves of cash discounts, must make remittances promptly on or before maturity of discount period or discount will not be allowed. **Customers not desiring to avail themselves of the cash discount must close account by note.**

Repairs... Transportation on all goods sent us for repairs must be prepaid.

To avoid the multiplicity of small accounts and the unavoidable labor connected therewith, we must insist upon the sending with all small orders sufficient cash to cover cost of goods desired.

If goods are to be sent by mail, send an extra amount to pay postage, and any surplus will be returned or placed to your credit on our books.
Positively no goods on consignment.

Our Guarantee

We guarantee all our work, with fair and reasonable usage, for one year from date of purchase. Breakage occurring within that time, on account of defective material or faulty workmanship, will be replaced free of charge, defective parts to be returned, and pay freight one way. This Guarantee does not apply to damages from accident, misuse or neglect, nor include resetting of Tires or renewing Tires worn out, or Poles and Shafts broken within the period above named.

Telegraph Code

Preceding each catalogue number will be found a word to be used as part of our cypher code in sending orders by wire.

Suggestion

In the different grades of work we manufacture there will be found a variety of styles, ranging in prices to suit your entire trade. This will enable you to buy of us in car lots, and save a large amount of freight during the season. You can also establish a reputation on a certain line of work, which is more profitable than selling several different makes of goods, as this confuses the purchaser and often loses sales. Our work has a reputation which enables it to stand upon its own merits.

NOTE

All parts returned must be properly tagged with shipper's name, as well as our name and address, and shipping bill mailed to us . . . No claim will be considered unless these conditions are complied with

Eastern—No. 224 Open Bike Surrey, $1\frac{1}{4}$ inch Cushion Tire. Eastward—No. 226 Open Bike Surrey, $\frac{3}{4}$ inch Hard Rubber Tire.
